PROFESSIONAL SUMMARY

I am an undergraduate specializing in Software Engineering, with a strong focus on web development and creative design. I am passionate about building responsive and user-friendly websites, and I have hands-on experience with React, Angular, Tailwind CSS, and ASP.NET. I am eager to learn new technologies, continuously improve my skills, and develop intuitive web applications that enhance user experiences. I also enjoy sharing my knowledge through blogging.

SKILLS

Programming Languages
JavaScript, HTML5, CSS,

Frameworks & Libraries
.NET (ASP.NET Core),Angular,Node.js , React.js, Tailwind CSS, Express.js,

Databases
MySQL, MongoDB

Tools & Technologies
Git (Version Control), Android Studio,Postman (API Testing),Bitbucket, Cursor AI

Responsive Design
Media Queries, Flexbox, Grid, Page Speed Optimization (ImageOptim)

Other Skills
Debugging & Troubleshooting, CRUD operation development

API Integration
RESTful APIs, Fetch, Axios,Third-party API Integration (Weather APIs)

Soft skills
Critical Thinking, Creativity, Attention to Detail, Communication

EDUCATION

Higher Diploma in Software Engineering   **2024**
National Institute of Business Management,

Diploma in Software Engineering   **2022**
National Institute of Business Management,

Diploma in Information Technology   **2018**
ESOFT METRO CAMPUS,Kandy

Diploma in English   **2018**
ESOFT METRO CAMPUS,Kandy

CERTIFICATIONS

- Database Foundations (Oracle Academy)

LANGUAGES

- English (Intermediate)
- Sinhala (Fluent)

WORK EXPERIENCE

Spendview ApS   **Denmark (Remote)**
Full Stack Developer   June 2025 – Present

- Developed a responsive full-stack application using React, Angular, ASP.NET Core, and Tailwind CSS.
- Built secure RESTful APIs with JWT-based authentication.
- Integrated Weather APIs for data-driven agricultural features.
- Implemented efficient CRUD operations and optimized database interactions.
- Collaborated with teams using Git, GitHub, and Bitbucket improving performance through debugging and testing.
- Worked with AI coding agents and tools like Cursor AI to accelerate development and problem-solving.

Technologies Used :**React.js, Angular, ASP.NET Core, JavaScript, JWT, Tailwind CSS, REST APIs, MySQL**

ACADEMIC PROJECTS

Web Developer – Student Management System

Technologies Used : **MERN Stack , Tailwind CSS , MongoDB**

- Created a real estate platform with features for admins, Student and Teachers.
- Designed a clean, responsive UI using Tailwind CSS.
- Built the frontend with React.js and the backend with Node.js, integrating REST APIs.

Web Developer - Houses Rental Website

Technologies Used: **React.js, Laravel, MySQL, Tailwind CSS**

- Created a real estate platform with features for admins, sellers, and buyers.
- Designed a clean, responsive UI using Tailwind CSS.
- Built the frontend with React.js and the backend with Laravel, integrating REST APIs.
- Implemented a Python NLP chatbot to assist buyers.

EXTRA-CURRICULAR ACTIVITIES

- Member of the School IT Unit (2018 - 2020)
- Take pleasure in doing workout in gym
